

COMFORT DEHUMIDIFIER TTR 56 E

Convenient dry keeping without compressor, cooling agent or defrost pause

The desiccant dehumidifier TTR 56 E is the ideal solution for the dry keeping of only temporarily heated or completely unheated holiday homes, weekend homes, yachts, sailing boats, basement rooms, garages and attics. For this dehumidifier reliably dries rooms of up to 12 m² even at low temperatures from 0 °C.

Due to its innovative desiccation technique the drying device needs neither a compressor nor cooling agent or defrost pauses, hence allowing a much more silent operation. With a dehumidification performance of up to 9 litres per day the TTR 56 E works extremely efficient already from a room temperature of 5 °C.

Drying of textiles included

The TTR 56 E comes with three conveniently preselectable operating modes: Fully automatic, continuous operation and an extra mode specifically for the drying of textiles – especially advantageous when both the quick and convenient drying of wet laundry, clothing or carpets is in demand.

The equipment of the new desiccant dehumidifier is completed by a 24-hour timer function, filling level warning light indicating a full water tank, overflow protection with automatic switch-off and a washable air filter, which can easily be removed. **You are here: trotec.com - [Products](#) - [Machines](#) - [Dehumidification](#) - [Condensation dehumidifiers, mobile](#) - [Comfort dehumidifier TTK-E-S series](#) - TTR 56 E**

Special features

- Non-stop dehumidification without defrost pauses thanks to desiccation technique
- Already from a room temperature of 5 °C, the dehumidification performance is very high
- Wide range of uses from 0 °C to 32 °C
- Automatic convenient dehumidification operation
- High efficiency
- Very compact and extremely light device

Standard features

-
- **Three preselectable operating modes also for drying textiles**
-
- **24-hour timer function**
 - **Connection for external condensation draining**
 - **Two-stage fan**
 - **Overflow protection with automatic switch-off**
 - **Integrated air filter for additional air purification by extraction of dust or animal hair**
-
